

SHE HAD SUFFERED FOR 6 LONG YEARS

Tulsa Resident Finds Entire Relief In Short Time Through Use Of Tanlac.

"By the time I had finished my fourth bottle of Tanlac I was entirely relieved of stomach trouble that had made my life miserable for six years," said Mrs. William Van Wert, 205 West Brady St., Tulsa, Okla.

"I had some appetite, but my digestion was bad and my food seemed to do me very little good. The circulation of my blood was poor and I was so nervous I could hardly sleep. I simply felt tired, worn out and no account all the time and nothing seemed to help me.

"Tanlac benefited me in every way and now I feel just like a different person. I eat anything I want, my digestion is excellent, I sleep like a child all night long and wake up in the morning fresh and happy. I have gained twelve pounds in weight too. I just think it's wonderful that I found such relief in such a short time. To my mind there is no doubt about Tanlac's being the greatest medicine in the world."

A Simple and Striking Evening Gown of Flowered Chiffon —A Marion Davies Model

A Pretty Evening Gown, Original and Inexpensive

By MARION DAVIES

Film Star of "The Realist Son," "Buried Treasure," etc.

I thought long and worked long over this cunning evening gown until I struck just the note I wanted. When you try it for yourself you will be as delighted as I with the result. Youthful, smart and dainty, it is also durable and can be worn many times.

An evening gown, above all other dresses, must have individuality. That was my aim in designing this model, and I feel very satisfied with my labors.

It is of flowered and beaded chiffon with a bias banding at the bottom of the skirt forming a scallop. The girle I made of silver brocade and then I took a narrow beaded girle that I had on another dress of jade green to form the shoulder straps. I was very proud of that invention and doubtless you have something of the same kind which will save you the expense of buying something new. It is caught in a V shape at the center back of the bodice and also tacked at the waistline to detract from the weight of the beads. The body of the bodice and the foundation skirt I made of silver cloth. Gold cloth or heavy satin can be used as well. This dress takes four yards, thirty-six inches wide, of the chiffon and two and three-fourths yards of the silver cloth. It ought not to cost more than \$15 or \$20, and by careful buying it can be made even more cheaply.

This pattern is drawn on a one-sixteenth reduction scale for a size 36. I will be glad to answer any questions about anything in the directions that is not perfectly clear. Address me at Cosmopolitan Productions, 127th Street, New York City.

GORE HAS TAKEN VEIL, BUT WRITES NOT LETTER

(Continued from Page 1.)

would enthroned the boss. It would turn back the hands on the dial of progress for more than a generation. Such a scheme has never been adopted. I believe has never been considered by the Democratic party in any Democratic State in this self-governing Republic. If the Democrats of Oklahoma accept this plan, then democracy is dead. It is not reorganization but resurrection which it requires.

As a political machine, this scheme approaches perfection. Its perfection would be complete if the preferential convention would authorize the state chairman to pick the ticket. This would be direct action. A glue club should be trained, however, to sting. "Come into my parlor, said the spider to the fly." The scheme is founded on a false analysis. It would put a to the primary system faults which do not belong to it. Would the last senatorial contest have been less acrimonious or less disastrous if it had been submitted to a preferential convention? It might, indeed, have had this advantage, the candidate that lost in the last primary would not have been so gulleible or so reckless as to enter the shambles of such a preferential "conference." It was the corruption and scandal of the boss-ridden conventions that gave rise to the primary. Shall the party return to that wallow?

But this scheme would not have the virtue even of a shell game. It would break the men who operate it. If a preferential conference made up of delegates who have the luck, leisure, and leisure to attend political convention should undertake to appoint the Democratic ticket, allowing the frank and file the rare privilege of electing it, the chances are as infinitely to zero that such a slaughter house march through a slaughter house into an open grave. Section 9 of Article 4 requires the state, county and precinct committees to elect themselves to have this machine made ticket ratified in the state primary. This sine again the law of the life of a political organization. The object of the Democratic organization is to elect Democratic candidates, not to select Democratic candidates. To sin this sin gives calamity to choice.

This plan misconceives alike the of democracy and the mission of the democratic party. The growth of democracy is, at once, the most distinctive, the most persistent the most resistless tendency of modern times. Its growth has, indeed, been slower than the century plant. It has required many centuries for democracy to attain the present stage of flower and fruition. It means the emancipation of the masses. It means the enfranchisement of the common man.

It means government by consent rather than by force. The stars in their course fight for democracy. It can not be turned back. Free men, sovereign citizens, will not resume the bonds or the brands of slavery. Stop the tides of the sea. Crush the eagle back into its shell. Then, try to arrest the majestic march of world-conquering democracy!

It beg of you not to do it. Avoid it as you would the Valley of the

NAVY'S DIFFERENT NOW! John H. Cady, a Civil War sailor of Sawtelle, Cal., retired from the Navy way back in '96, accompanied his son James when the latter went to his post on the battleship Idaho. He found things much altered and thought the "galley" was the captain's stateroom.

Shadow of Death. "It is the voice of the serpent and not the voice of God that bids you eat." Forget this as you would a fevered dream. Democrats are beginning to yearn for the fray. Let the Democrats nominate a Democratic ticket in a fair and open Democratic primary in accordance with Democratic methods and Democratic standards; given them a cause to fight for and I predict a majority of more than 60,000. Democrats will die for a principle. They will not die for a machine. Let the spirit of Jefferson be their pillar of cloud by day and their pillar of fire by night. Given them a cause to champion and the Democrats will awake, will arouse themselves, will shake off the dew-drops that glitter on their garments and march forth to battle and to victory.—T. P. Gore.
